

UBIKT Tokenomics

1. Introduction

UBIKT is a utility token built on the Arbitrum One network to support a reward-based ecosystem within the Ubikt mobile application. Ubikt aims to drive youth engagement, incentivize real-world commercial interactions, and bring blockchain utility to local economies in Colombia.

2. Token Details

- Token Name: UBIKT
- Network: Arbitrum One
- Token Standard: ERC-20
- Contract Address: 0x1023cD1b149bAb191668d459422334488723c315
- Decimals: 18
- Initial Supply: 100,000,000,000 UBIKT
- Minting: Controlled (only for staking reward logic)

3. Token Allocation

- Public Sale: 10% (10,000,000,000 UBIKT)
- Private Sale: 5% (5,000,000,000 UBIKT)
- Seed Round: 2.5% (2,500,000,000 UBIKT)
- Community & Airdrop: 10% (10,000,000,000 UBIKT)
- Staking Rewards: 40% (40,000,000,000 UBIKT)
- Ecosystem & Marketing: 15% (15,000,000,000 UBIKT)
- Team & Advisors: 10% (10,000,000,000 UBIKT)
- Reserve: 7.5% (7,500,000,000 UBIKT)

4. Token Utility

- Earn rewards through scanning QR codes and completing actions in the app
- Stake USDT to earn UBIKT
- Unlock exclusive promotions and merchant benefits
- Participate in local business gamification and loyalty programs

UBIKT Tokenomics

5. Sales & Vesting

- Public Sale Price: \$0.0001 per UBIKT (1 USDT = 10,000 UBIKT)
- Private Sale Price: \$0.00005 per UBIKT
- Seed Price: \$0.00004 per UBIKT
- Vesting: Private/Seed rounds unlock 10% at TGE, remaining vested over 6-12 months

6. Use of Funds

- Platform development and UX enhancements
- Marketing and onboarding of merchants and users
- Partnerships and regional expansion
- Liquidity provision and exchange listings

7. Governance

UBIKT is not currently a governance token. However, future iterations may allow token holders to vote on community-driven proposals within the app's ecosystem.
